Health Inequalities Data Tool Webinar: Questions

June 18, 2018

Presenter's Name	Audience Name	Comments/Questions	Answer
	Marcia Anderson	Has the Joint FPT response made any investments into Indigenous-led organizations/ initiatives to strengthen the Indigenous-specific data infrastructure? Why not or if so, where/what type of investment?	
	Marcia Anderson	From the slides and my baseline knowledge there would be almost no ability to report on the indicators for non-Registered First Nations, Metis or Inuit people and limited ability for Registered First Nations people.	
	Marcia Anderson	How is the Joint FPT response working with structurally disadvantaged groups to contextualize the inequities and develop plans for action?	
Malgorzata	Nicolas De Guzman	Question for Malgorzata: What were some of the most significant challenges in creating a tool like this? What should other countries take into account if they want to create something similar?	
Margo	Ximena Avellaneda	como hacen para que las poblaciones originarias se apropien de éstas herramientas y la puedan usar para sus fines?	
Margo	Jennifer Churchill	I would like to know how this tool will be applied to address health inequities in Canada?	
Margo	Maya Nye	What is the source of these data?	
Margo	Rocio Saenz	Has this tool been used in other countries, or only Canada?	
Margo	Melissa Smith	How/where do we find comparative morbidity/mortality data between indigenous peoples and non-indigenous?	
Malgorzata	Rocio Saenz	How to define or contextualize health care access	
	Ilene Hyman	How to capture heterogeneities existing within populations?	
Margo	Jess Gonzalez	A short video with a walkthrough of how to use the tool
